The style of Paula comes across as retro-romantic indie pop with a black and white aesthetic. Reminiscences of the artful releases of Lana Del Rey certainly don't shimmer through the sound design by chance, but she is on her own path with her smoky and melodramatic style.

While his double bass produces a lively groove similar to an electric bass, Payton Crossley resonates his cymbals, Jimmy Green his tenor saxophone and pianist Renee Rosnes her choruses. This is the recipe of the Foursight Quartet. The quartet pays tribute to the late pianist Geri Allen with the bluesy "Nearly", and Chet Baker, the antipode of Miles Davis, with "You And the Night". Who hasn't Ron Carter played with? "A lot of my colleagues are still concentrating on their solos. I concentrate on the music and this very special moment. When I reach it, I rejoice every time! The zenith as a permanent state." Every Marcus Miller appearance on stage is an event in a world that is somewhere between Funk, Soul and modern Jazz... In 1973, the musician left the legendary Mahavishnu Orchestra to release his first solo album, Spectrum. Although he had a clear idea of what he wanted to do, he never imagined that he'd be giving shape to one of jazz rock's landmark recordings, and celebrating it on tour 40 years later...A collaborator of Miles Davis, George Benson and Quincy Jones, he also signed numerous albums as a leader, notably with his group Spectrum Band in the early 70s. A master in the art of polyrhythm and the key drum of jazz rock, Billy Cobham has illuminated with his science hundreds of sessions that, from Miles Davis to the Mahavishnu Orchestra via Dreams with the Brecker brothers, cover a staggeringly wide spectrum. In 2009, the artist released Drum 'n' Voice 3, a return to the jazz-funk sound of the 1970s, with guests such as Brian Auger, George Duke and Gino Vannelli. Cobham plays his drums using the open-hand technique, which allows the musician to play without crossing his right hand over the snare drum. His concert at the Monte-Carlo Jazz Festival is certain

Content: Wayne Shorter's maxim is to reinvent his music in each concert, always again in the radical originality. After his legendary work with the Art Blakey's Jazz Messengers, the Second Miles Davis Quintet and his years with Weather Report in his year 2000, Wayne Shorter formed the Wayne Shorter Quartet, the first formation under his own name. This group provides him with the freedom to reinvent and form his music always again. He sees the celebrated soloists Brian Blade, John Patitucci and Danilo Pérez less as sidemen but rather as equal elements of an organism. They call their method "Zero Gravity", an original state of music which they always re-conjure in the interaction, and which is the basis of their explorative journeys into new musical territory. Content: With their "Janoska style" the four members of the Janoska Ensemble have developed a breathtakingly virtuosic and profoundly personal vision of music, which they interpret in a thoroughly modern way. Among unifying factors are their family ties and an inexhaustible inventiveness that allows them to explore a wide range of works from popular classics to compositions that they have written themselves and, finally, idiosyncratic arrangements of jazz, pop and world music. For Live in Bratislava the four Janoskas have chosen to present a picture of Vienna as a cultural melting pot, lacing it with irony and wit, and evincing a very real delight in music-making that time and again takes them beyond the confines of the Austrian capital. Virtuoso classics by Franz Waxman, Niccolò Paganini and Pablo de Sarasate are heard alongside a Viennese work by Fritz Kreisler and operetta themes by Johann Strauss combined with the strains of a csárdás and music from the Balkans, to say nothing of a number of flights of fancy across the Atlantic to the world of the tango and rumba and of jazz improvisations.

Content: The Goat Rodeo Sessions is an ambitious and groundbreaking project that brings together four string virtuosos: world-renowned cellist Yo-Yo Ma, fiddler Stuart Duncan, bassist Edgar Meyer and mandolinist Chris Thile. While each artist is a prominent figure in his own music sphere, they have come together as a unified ensemble on a most remarkable and organic cross-genre project. The music, including two tracks with female vocalist Aoife O'Donovan, feels both new and familiar – it's composed and improvised, uptown and down home, funky and pastoral and above all, uniquely American. A goat rodeo, according to Urban Dictionary, "is about the most polite term used by aviation people (and others in higher risk situations) to describe a scenario that required about 100 things to go right at once if you intend to walk away from it."

However, he has worked very hard to achieve this success. He is in the middle of his life and draws a first résumé. How did David Garrett become David Garrett? What makes him special? To answer the core question of the documentary, "Who is David Garrett?", a look at his professional career is not enough. Rather, we get closer to the answer with very private glimpses into his life - by looking into an otherwise hidden world. Interviews of companions, friends and family underpin the picture of the violin genius. An alternation of present and past runs narratively through the film. We make the past visible and tangible through a journey to the most important stations of his life. In addition, there are leaps back into the past through the use of archive and private material (hours of previously unreleased material from his childhood).

It takes a particularly close look at the mysterious circumstances surrounding his violent death. Was he killed in self-defence, as officially claimed? Or was it murder, as his family, friends and conspiracy theorists believe? A question that is worth asking, even if it ultimately remains unresolved. Because simply looking into the circumstances of his controversial death to this day, affords insights into the social context during the founding years of pop music, which Sam Cooke defied more forcefully than any other black musician of his day.
